

# Reimagining IT at University of Oslo –Transforming IT services to the needs in the 21th century

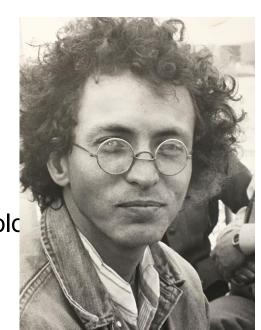

Lars Oftedal, IT-director, University of Oslo

# **University of Oslo (and me)**

- Best research university in Norway
  - Ranking Shanghai: 62
- Budget 8 billion (NOK)
- Students: 28.000
- Staff: 6600 FTEs

- IT-director 2007 today
  - USIT University Centre for Information Technology

# Why reimagining IT

# Develop a digitalization plan

- Workgroup
  - Dean, researchers,
- IT in science
- IT in education
- Masterplan for IT digitalization plan
  - Needs from researchers
  - Survey from the faculties
  - Resource analyses
  - IT trends
  - Research on IT in organizations

# Content of the digitalization plan

- A summary of the current situation for UiO's use of IT
- An overview of the most important trends
- Vision
- Challenges and user needs
- Financing needs and relevant financing models
- Recommendations

# **Survey result**

- UiO's ambitions larger investments are absolutely crucial
  - Dilemma: Who pays for what?
- Problem analysis from the faculties
  - Gap between IT and educators/researchers
    - Technology and services offered
    - Support offered
- Research and education: domain-dependent and domainspecific
- Good IT infrastructure and basic IT services, secure

## Recommendations

- Strategic alignment of IT with business
- IT competence and skills development
- Domain-near IT support for research and education
- Coordination and prioritization for the university's IT
- Organization of IT at UiO
- Financing and financing models

## IT in Research

7 Hubs already

## Platforms for IT in research

- Services for sensitive data (TSD)
- Research platform

GDPR

# **Services for Sensitive Data (TSD)**

- What is TSD?
  - provides a platform for researchers at UiO and other public research institutions
  - can collect, store and analyze sensitive research data in a secure environment
  - secure project area
  - integrated solution for collecting sensitive data (Nettskjema)
  - access from anywhere in the world
- https://www.uio.no/english/services/it/research/sensitivedata/
- Video about TSD
  - https://www.uio.no/english/services/it/research/sensitive-data/tsdvideo/

# UiO University of Oslo Phone apps Self Service Daglig skjema Export/import API Tablet apps Ukeskjema 2 By surface reconstruction, the distance between the white atter surface and the gray matter surface can be measured Compute, analyse and store data **TSD** Collaborate / share Data capture **Consent Service** I Nettskjema kan du

Fig. 1. PDP-7 og bruker i livlig passiar. Merk skapet til høyre på bildet, med instrumenter (forsterkere, analog til digital omformere, etc.) som kan plugges inn med et enkelt håndgrep. (Nuclear Instrumentation Modules NIM).

## IT in education

 "The goal of CCSE is to integrate computing as a natural tool in basic educations, to make the education research near and to prepare students for an interdisciplinary workplace"

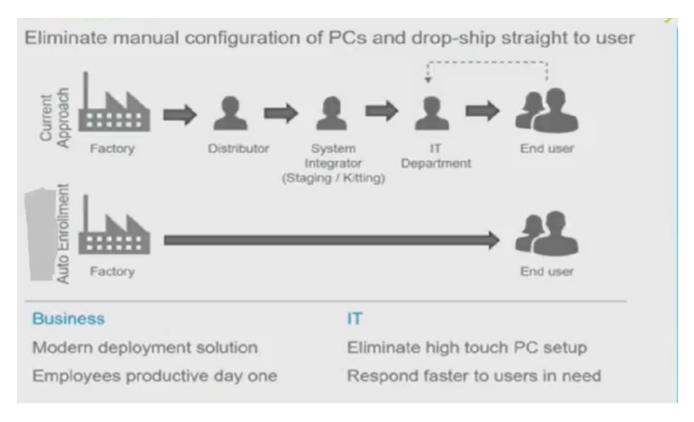

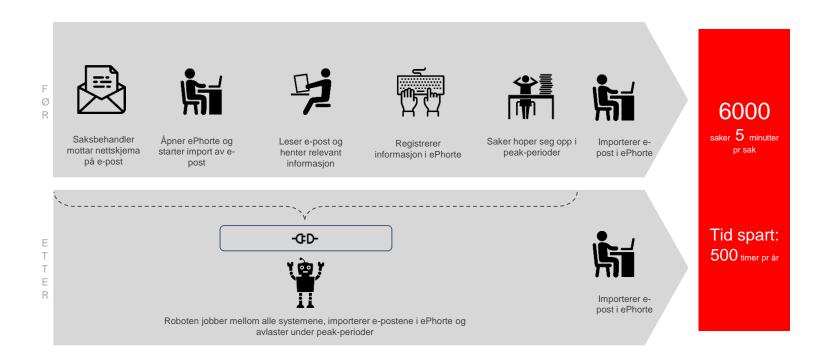

## **Recommendations IT in education**

- Promote innovation in digitalisation and IT in all education and studies
- Strengthen employees and students digital competence and skills
- Develop students' learning and study environments
- Increased emphasis on connecting digital and physical learning environment
- Improve support for evaluation and feedback along the way, learning analytics and educational leadership

## IT infrastructure and basic IT services

## **Administrative IT**

## **IT Governance**

- coordinating, prioritizing, portfolio management
- Governance challenges:
  - Competence
  - Focus
  - Transparency
- Changes in Governance in higher education
  - «New» strategy from the Ministry of Education and Research
  - Directorate for ICT and joint services in higher education and research

## **New IT Governance**

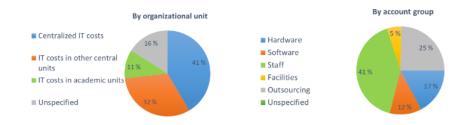

- Strategic coordinating group for IT
- Subgroups
  - IT in research
  - IT in education
  - Administrative IT
- IT part of the responsibility for the director
- National services

# **Organizing of IT**

- Status
- Technology trends
- Competence
- Challenges
- One:IT
  - Project

# Financing of IT

- Cost IT on UiO
  - ~500 million NOK (Bencheit)
- Invest in IT!
- Financial models

#### Comparison

You can also compare your organization against your peers. In the BM analysis, you can pick up four of your fellow organizations and put them in comparison by all indicators.

# Status digitalization plan

- Approved by the board
- Project for a new IT organization
- Implementing governance structure
- Plans for IT in research and education

- Focus on IT
  - Executive leadership
